

Think OTC for your Ulcer and Allergy Medications

A smarter way to think. An easier way to save.

Brand name drugs like Nexium®, Prevacid®, Prilosec®, Zyrtec®, Claritin® and Zantac® that used to only be available with a prescription are now available over-the-counter (OTC). If the OTC version is available in the same strength as the prescription drug you're currently taking, then the OTC version could provide additional savings opportunities for you. As a result, your plan has elected to cover select OTC medications at a \$3 co-payment. Covered medications include non-sedating antihistamines (NSAs) and ulcer/heartburn treatments packaged as name brands, store brands or generics as long as they are prescribed by your physician and processed using your prescription benefit card at your local pharmacy. That's right... a \$3 co-pay!

Talk to your physician today to find out if an OTC product is right for you.

Get Started Today

To take advantage of this \$3 co-pay OTC program, please follow these 3 easy steps once you and your doctor agree that an OTC product is right for you:

1. Ask your physician to write (or telephone in) a prescription for the specific OTC product.
 - Make sure your physician writes "OTC" on the prescription.
2. Take the prescription to your local pharmacy (not available through mail service) and ensure that your pharmacist:
 - Uses your prescription benefit card to fill the OTC prescription.
 - Fills the prescription just like any other prescription medicine, making sure to include your doctor's name and instructions on the label.
 - Charges you a \$3 co-pay as a result of this program.
3. Make sure to follow your doctor's instructions for use when taking the medication.

It doesn't make any sense to pay more. Talk to your physician to find out if an OTC product is right for you and start saving today!
