

You Have the Freedom Traditional Plan

No network. You're free to go to any provider for services.

Allied National gives you the ability to choose the provider you want without restrictions or penalties. There are no preferred providers or networks required. You will never be penalized for seeing an out-of-network provider because there is **NO network!**

Reimbursement to your health care providers is based on a specified percentage above Medicare levels. You will not be responsible for balance billing from providers who do not accept the reimbursement as full compensation.

Please check with your providers before receiving care to see if they will accept Medicare reimbursement "plus" as payment in full for your health services. Physicians and facilities providing your health care are reimbursed at the levels shown on your health plan ID card.

Q. Can I really see any provider I choose?

A. YES! The Freedom Traditional Plan allows you to see the provider YOU choose. There are no preferred providers or PPO networks required. There are no penalties or reduced benefits for seeing the “wrong” provider.

Q. Will I still receive the value of PPO-like prices?

A. Yes! The Freedom Traditional Plan pays providers based on a percent above the Medicare allowed price for your medical services. This is set at a level that is acceptable for most providers while providing you with excellent discounts.

Q. What happens if I get a balance bill from my provider?

A. Freedom Traditional or Freedom Essential Plan members are responsible only for copays, deductibles and coinsurance as shown in the Explanation of Benefits. They are not responsible for any balance billing from providers who might not accept the reimbursement levels of the plans.

For bills in excess of \$5,000, Allied National provides a legal support service for members who are being subjected to balance bill collections. If a member receives a balance bill, they should call Allied’s Elite Experience team at 866-332-1987 or email balancebilling@alliednational.com.
