

## Allied Freedom Plan Options

### Give your clients the freedom of choice!

Allied National's Funding Advantage Freedom Plan Traditional and Freedom Essentials plan options allow your clients the full choice of health care providers without restrictions or penalties. There are no preferred providers or networks required. Your clients see the provider THEY choose!

- **NO networks or PPOs required** — The Freedom Plans give you a simple and easy plan to sell to your clients.
- **PPO-like discounts for all medical services** — All bills submitted by providers are repriced to the Medicare allowable price. This reimbursement to the provider is then increased by the percentage above Medicare allowable depending on the provider. This is often referred to as Medicare “plus” reimbursement. For physicians and physician services, reimbursement is at 125% of Medicare allowable. For facilities, reimbursement is at 150% of Medicare allowable.
- **No Balance Billing** — Freedom Plan members are responsible only for copays, deductibles and coinsurance as shown in the Explanation of Benefits. Members are not responsible for any balance billing from providers who might not accept the reimbursement levels of the plans. Allied National provides a legal support service for members who are being subjected to balance bill collections. If a member receives a balance bill, they should call Allied's Elite Experience team at 866-332-1987 or email [balancebilling@alliednational.com](mailto:balancebilling@alliednational.com).
