

# Encore Health Network

## Provider Data Download Import Specifications

Produced by Encore Health Network

Version 4.0

### Overview

The Provider Data Download contains a complete set of critical provider demographic information.

Contents includes:

- Basic Demographics
- Location Addresses
- Tax ID Numbers
- Network Participation Dates

Provider Data Downloads include active providers plus terminated providers who terminated within the prior 12-month period.

This format is recommended for clients who need to perform provider lookups or accomplish similar functions. Fee schedule information is not included in this extract; therefore, this format is not recommended for clients who perform claims repricing or other functions involving fee schedules.

The PDD is prepared in a non-relational, tab-delimited ASCII format and includes files for facilities and professionals. This format includes a total of two (2) files.

This readme file contains format information for the following files:

File Name	File Type/Contents
<network code>_fac_pdd.txt	Facility Provider Data Download
<network code>_phy_pdd.txt	Physician Provider Data Download

Please note that the **<network code>** represents the Encore Health four-character network code for the specific network data included in the download data files. Below are the network codes.

Network Code	Network Name
encp	Encore Prime
ecmb	Encore Combined
encl	Encore
elit	Encore Elite
elip	Encore Elite Plus

## File Layouts

### Facility Provider Data Download

Field	Description
NPI	National Provider Identification
TaxID	Tax ID
Name	Facility Name
Address	Facility Location Address
City	Facility Location City
State	Facility Location State
ZipCode	Facility Location Zip
County	Facility Location County
MsaID	
PhoneNbr	Facility Location Number
