

Freedom Hybrid - Best of Both Worlds

Switching to a plan with no provider network can feel like a big change.

That's exactly why the Freedom Hybrid Plan exists: a solution designed to combine the familiarity and comfort of a traditional PPO physician-only network with the cost control and efficiency of benefits available under reference-based pricings.

It's a balanced approach that gives clients the best of both worlds without compromising on flexibility or value.

Members can still see any physician of their choice without any of the penalties that come with traditional PPO networks. All claims are treated equally, and members get full plan benefits no matter which provider they choose.

Contact Allied Sales Support at sales@alliednational.com or 888-767-7133 for a quote or visit our Agent Edge web page at www.alliednational.com/agentedge for more information.

1095Bs have been mailed

Agents – We have sent your Funding Advantage employers their 1095B forms for each employee who was covered under their health plan. These forms are accessible on the [employer portal](#).

Employers must submit the 1095-B forms to the IRS along with a 1094-B cover sheet. The IRS uses this data to verify whether employees were offered health insurance coverage during the prior year. Forms are due Feb. 28 if filing by paper and March 1 if filing electronically.

For Applicable Large Employers (ALE) with 50 or more employees, employers will also need to fill out 1095-C forms to report coverage with the IRS.

Employers should contact Client Services at 800-825-7531 if they need additional details for their covered employees and dependents along with premiums paid for the calendar year.

Thank You!

Thank you for participating in our **Next Level Solution Bonus Program** and for going above and beyond to deliver extraordinary service to your clients.
