

Affordable Coverage Without Compromise: A Smarter Option for Cost-Conscious Individuals

Our partner, Pivot Health, offers expertise in the short-term health insurance market, and we're excited to pass that insight along to you. Their guidance can help you confidently connect clients with coverage options that meet their needs, especially when affordability and flexibility matter most.

Health insurance should fit your clients' budget - not compete with groceries, gas, and everyday essentials. With ACA premiums continuing to climb, many clients are feeling the strain and looking for alternatives that provide protection without overwhelming their finances. This creates an opportunity for agents to guide clients toward solutions that better match real-world needs.

Pivot Health short-term medical plans offer a practical, flexible option for those individuals priced out of ACA coverage, COBRA or navigating life transitions. With lower monthly premiums and customizable plan options, clients can prioritize what matters most - without paying for benefits they may not use. These plans are well-suited for individuals between jobs, waiting on employer benefits, or managing inconsistent income. Quick approvals and fast effective dates make it easy to secure coverage when timing matters. By offering Pivot Health, you position yourself as a solutions-focused advisor - helping clients stay protected while easing financial pressure.
