

FUNDAMENTAL CARE
TRI-LEVEL LIMITED DAY PLANS

You Have a Fundamental Care Health Plan

Fundamental Care is an expense-incurred, limited-day health benefit plan. After a copay for services, your plan pays 100% of the cost of services up to a limited number days of services for each type of service. The plan covers preventive care, office visits, urgent and ER care, lab and X-ray, diagnostic testing, and outpatient hospital services. In-hospital benefits may be purchased as an additional plan upgrade.

Your plan also provides generic Rx drug coverage; free lab work when done at approved facilities; and free access to telehealth providers.

As a member of the **Prime Health Network**, you're encouraged to use your network of preferred doctors. For facilities, reimbursement is based on a multiple of Medicare allowable and member can go to any facility. In-network health care services will be provided at discounted costs. If you're unsure of your provider choices, visit fundamentalcare.primehealthservices.com.

There is a phone number on your ID card you can call to find a preferred provider if you are out of town or there's an emergency.

See your Summary Plan Description for complete details.

Special features of your Fundamental Care Plan

Generic Drugs

Fundamental Care covers Tier 1 generic drugs for a \$15 copay. Check your Rx formulary at alliednational.com/prescription-benefits for a list of the generics that are available. Brand drugs are available at a discount.

Advantage PHC

The Advantage PHC program works for you. Their job is to assist you in finding in-network providers, helping to understand your benefits, helping to schedule procedures and much more! They will even help you understand your claims and fight for you should something not be correct. We highly recommend calling Advantage PHC prior to scheduling or accessing any medical care.

Lab Program

This program provides outpatient lab testing to at no charge. Just makes sure you use and request a Quest Diagnostics facility or a doctor's office that sends the tests to a Quest Diagnostics, LabCorp or American Esoteric facility.

Walmart Health Virtual Care

Walmart Health Virtual Care (WHVC) provides anytime access to a board-certified physician, nurse practitioner, physician assistant, therapist, or psychiatric provider from where it's most convenient – home, office or on the go. You can have a virtual consult to diagnose non-emergency medical issues over the phone (where permitted) or through secure video on your computer or smartphone. Your telemedicine benefit gives you:

- 24/7 access to consult with a licensed physician by phone or video.
- Most visits are included in your plan and provided at no cost.
- Non-maintenance prescriptions written by a physician.

To activate your account, visit wmthealth.com/telemed.
