

The Right Balance of Benefits and Premiums

Our small group dental plans offer freedom, flexibility and outstanding value to groups of two to 99.

Dental Design can be sold as a stand-alone, with vision, or as an add-on to our Funding Advantage plans, and it's a great door opener to new clients who might be looking for that "something extra" to provide to their employees.

Customized plan design allows you to create a dental plan that has the features your clients want. If they seek the comfort that comes from having a PPO, they can be part of the Aetna Dental PPO Network, except in Texas and Virginia. If they want to go to any dentist, they're free to do that and they will still receive insurance benefits.

Get great dental benefits for small groups - at a lower cost!

- Insureds can choose any dentist for services without a penalty. However, an Aetna PPO Dental Network is automatically included, except in Texas and Virginia. Voluntary use of its dentists at the locations across the country may help reduce coinsurance costs.
- 100 percent preventive care benefits with no deductible.
- Takeover benefits available for groups of two or more.
- Choice of deductible and benefit maximums.
