

Did You Select the Vision Option?

Your new dental plan came with an option for vision benefits. If you opted for vision, the plan will be administered by National Vision Administrators (NVA), and you will receive discounts on many of their services or materials. You'll get the best discounts by using the NVA PPO Network. You can find out information about the providers in your area at:

www.alliednational.com/find-a-provider.html

NVA will be sending benefit information and an ID card to everyone that signed up for vision coverage. Just present your ID card to your eye doctor at your next visit.

If you have vision coverage and have questions about your vision benefits, just call 1-866-468-2393. NVA's Customer Service Representatives have on-line access to all information necessary to answer member questions.
